Dear Sir:

I would like to request the opportunity of speaking before the public hearing panel concerning the Rocky Flats Nuclear Plant to be held at 9:00 AM on May 24, 1978 at the main Denver Post Office building in Denver Colorado. My comments will be brief and will not require longer than approximately five minutes. I would like to address the question of radiation exposure hazards from the environment and their proportional relationships to diagnostic radiological procedures.

Sincerely yours,

W. Edward Naill, M.D.
